Professional Profile

Computer Systems Engineer with experience in **software development, data analysis, and process automation**. Specialized in the use of **relational databases, SQL, and scripting** to achieve **workflow optimization**, improve operational **scalability**, and generate actionable insights to support decision-making.

Technical Skills

Programming Languages

- Python, C, C++, C#

Relational Databases

- PostgreSQL, MySQL, SQL Server, SQLite

Data Analysis and Automation

- SQL, Pandas, Selenium, BeautifulSoup, ETL processes

Web Development

- HTML, CSS, JavaScript

Tools

- Git, Linux, VS Code, Vim
-

Courses and Certifications

Relational Database Certification – freeCodeCamp (2025)

- **Technologies:** Bash, PostgreSQL, SQL
https://www.freecodecamp.org/certification/mario_rivera_meade/relational-database-v8

Python Certification – freeCodeCamp (2026)

- **Technologies:** Python 3, Object-Oriented Programming (OOP), Unit Testing, Algorithms
 - **Key Projects:** Probability Calculator (Monte Carlo simulations), Arithmetic Formatter, and Budget App.
https://www.freecodecamp.org/certification/mario_rivera_meade/python-v9
-

Professional Experience

PC and Logistics Analyst / Customer Service

Aptiv – Linares, Nuevo León, Mexico

March 2023 – July 2024

- **Situation:** Operational processes relied on manual tasks and inefficient reporting for inventory control and operational analysis.
- **Task:** Automate workflows and improve data analysis quality to support decision-making.
- **Action:** Developed automation tools using **SQL and scripting**, executed complex queries on **relational databases**, and participated in **ETL workflows** for data consolidation.
- **Result:** Reduced operational processing times, improved inventory forecast accuracy, and delivered scalable, actionable reports for cross-functional teams, contributing to increased operational efficiency.

Data Management Assistant

Desarrollo de Engordas (DENES) – Montemorelos Highway

July 2022 – January 2023

- Validated, cleaned, and managed operational data, ensuring **data quality and integrity** for tracking and control purposes using consistency criteria and spreadsheet tools.

Sell Out Promoter

OPPO – Linares, Nuevo León, Mexico

August 2025 – February 2026

- Developed **effective communication, customer service, and goal-oriented work** skills in a commercial environment.

Education

Bachelor of Computer Systems Engineering

Instituto Tecnológico de Linares | August 2017 – March 2023

Relevant Academic Projects

- Commercial Management Application (C#, SQL Server)
- Secure Enterprise Network Simulation

Languages

- Spanish – Native
- English – Intermediate (B1)
 - Certificate: https://www.freecodecamp.org/certification/mario_rivera_meade/b1-en-english-for-developers

Soft Skills

- Analytical thinking, problem-solving, teamwork, time management skills
